

Automate the Commission Process Directly from Insurers

Direct Bill Commission Statement (DBCS) download allows you to automatically download commission statements directly into your management system, automating the process to reduce manual data entry and eliminate paper messaging.

DBCS download through IVANS delivers transaction data directly into the agency management system in the regular policy download, automatically creating an electronic version of the report, which can be used to reconcile and post direct bill commissions. Strengthen client relationships and eliminate hours of manual data entry to become more efficient and profitable.

Direct Bill Commission Statement download provides your business with:

- Automated commission statement download processing
- A more efficient way to ensure commissions are properly reconciled each month
- Increased data accuracy and minimized risk of errors and omissions

“ We used to have to manually enter thousands of transactions that ate up three to four days of valuable employee time each month. Now have the statement waiting for us from the previous night’s download. All we do is verify we have been paid the amount that was downloaded, enter our balancing totals and post. In a few short minutes the task is completed. ”

Carl Schlotman III, CPCU, CIC, President, CAI Insurance

Enables your business to

- Automate DBCS reconciliation and eliminate manual data entry
- Reduce commission statement processing time
- Improve ease of doing business with insurers and the insured

Why IVANS?

IVANS is the property and casualty insurance industry’s exchange connecting insurers, MGAs, agencies and the insured.

IVANS’ cloud-based software automates the distribution and servicing of insurance products.

For more than 30 years, IVANS innovation and expertise has connected more than 30,000 independent insurance agencies and 380 insurer and MGA partners to enable millions of people to safeguard and protect what matters most in people’s lives.
