IVANS Rating enables your business to provide anytime quoting to your agency partners nationwide. Leveraging your existing comparative rating infrastructure, IVANS Rating offers seamless in line quoting to agents using participating agency management systems, comparative raters and other distribution platforms.

Connecting you directly into agents' daily quoting workflows, this cloud-based data exchange solution ensures your products are represented to the largest network of independent agencies available, while reducing time spent managing one-off agent quote and vendor integration requests.

By leveraging a growing number of the 30,000 independent agents and more than 40 software vendors in IVANS' distribution network, IVANS Rating enables you to expand quote distribution through multiple online and integrated channels, increasing connectivity with agents so you can drive new business and build stronger agent relationships.
